+1 416 435 9779

- Professional software developer for over 40 years
- Fellow of the Python Software Foundation
- Co-founder and first Executive Director of Software Carpentry
- Recipient of ACM SIGSOFT's "Influential Educator of the Year" Award
- Co-founder of *It Will Never Work in Theory* and *The Architecture of Open Source Applications*
- Author or editor of fourteen books on programming, one on teaching, and two for children

Employment

2025/10–present	Independent consulting and teaching.
2024/04–2025/10	Engineering Manager, Open Source Libraries, Plotly. Managed in-house developers; coordinated open source community strategy.
2021/09–2024/03	Senior Engineering Manager, Deep Genomics. Recruited and managed developers; built back-end software in Python; developed and delivered in-house training
2021/02–2021/08	Head of Education, Metabase. Designed and delivered training material; managed content development team.
2018/09–2021/01	Data Scientist and Professional Educator, RStudio PBC. Created and ran instructor certification program and student intern program.
2017/08–2018/05	Content Developer and Instructor Trainer, DataCamp. Created courses on Git and the Unix shell; recruited and trained freelance instructors.
2017/01–2017/07	Principal Consultant, Rangle.io. Revised training materials on Angular and React; coached company staff on training techniques.
2015/08–2016/12	Director of Instructor Training, Software Carpentry Foundation. Developed and delivered the foundation's train-the-trainers course.
2012/01–2015/07	Executive Director, Software Carpentry Foundation. Developed curriculum; trained instructors; negotiated external partnerships; led fundraising; led development of workflow tools.
2011/07–2011/12	Software Engineer, Side Effects Software Inc. Co-developed online store for the company's flagship product using Django and Selenium.
2010/05–2011/06	Project lead, Software Carpentry. Developed and delivered workshops on research computing skills; recruited and trained volunteer instructors; oversaw program assessment and fundraising.
2007/01–2010/04	Assistant Professor, Computer Science, University of Toronto. Designed Professional Master's program; taught courses; supervised theses.
1982–2006	Software developer and consultant for academic research centers, US national labs, and firms ranging from early-stage startups to IBM.

Education

1993	PhD in Computer Science, University of Edinburgh.
1986	MSc in Artificial Intelligence, University of Edinburgh.
1984	BSc in Mathematics and Engineering (First Class Honors), Queen's University.

Awards

- ACM SIGSOFT Influential Educator of the Year Award, 2020.
- ComputerWorld Canada's "IT Educator of the Year" award, 2010.
- Co-winner of 2008 Jolt Award for Best General Book (for *Beautiful Code*).
- Co-winner of Howe Prize (best thesis in Artificial Intelligence), University of Edinburgh, 1986.
- Commonwealth Scholarship, 1985–86.
- University Medal, Queen's University, 1984 (top student in graduating class).

Miscellaneous

- Co-founder and editor of *It Will Never Work in Theory*.
- Founder and co-editor of *The Architecture of Open Source Applications*.
- Author of two children's books (*Bottle of Light*, 2008 and *Three Sensible Adventures*, 1999).
- Co-organizer of summit meeting of free-range computing education groups, 2015.
- Python Software Foundation, 2010-present.
- Stencila Advisory Board, 2017-19.
- Toronto Public Library Innovation Council, 2017-18.
- Advisory Board, Ladies Learning Code, 2012-2014.
- Book review editor for *Doctor Dobbs's Journal*, 2001-10.
- Mentor for Google's Summer of Code, 2005-2015
- Ultimate frisbee, 1995-2003 (Toronto "C" Division championship team, 2002).
- Competitor in World Computer Chess Championship, 1989.
